FOR IMMEDIATE RELEASE

Polarion Software Appoints Stefano Rizzo New Product Manager

Stuttgart, Germany, March 15, 2005 — Polarion Software, creators of fully integrated application lifecycle management solutions and services, today announced the appointment of Stefano Rizzo to the position of International Product Manager at Polarion.

Rizzo brings to Polarion more than 15 years of experience in the software development industry. Most recently he was the country manager for Italy for TogetherSoft Corporation and CEO of NCH, an Italian software house for which he built up the European distribution channels.

"Stefano was our first choice for this challenging position," said Frank Schröder, CEO of the Polarion Software. "He has the necessary technical knowledge as well as the required experience to be active and effective at the international level."

"The big challenge is to coordinate product development in Prague so as to satisfy the wishes of our customers worldwide," said Rizzo. "Polarion, by extending open source into products designed as commercial supplements, is able to offer a lucrative and future-oriented product portfolio that includes the SAP world as well as the client-server sphere."

Interested journalists may interview Mr. Rizzo by contacting the Polarion Software at http://www.polarion.com.
